

Join a dynamic network of educators committed to learning and teaching about climate change through interdisciplinary and place-based approaches.

For middle & high school teachers in Northern New England.

- **Build** on your knowledge of climate change education.
- **Involve** students in planning and taking action.
- **Gather** at different locations including a summer intensive at Shelburne Farms.
- **Advance** our collective impact on climate change action!
- Year-long support through stipends and gatherings.

Climate Resiliency Fellowship

Advancing Climate Literacy for Every Classroom
